## HILBERS INC. GOES AIRBORNE... ADDS DRONE TO TOOLS

Keeping on the leading edge, Hilbers Inc. now incorporates aerial drone footage for many of our new project photo shoots.

Sporting a 4K camera that also shoots RAW format still photography, this new equipment will go far in keeping us at the forefront of marketing our projects.

We also provide the client with the footage which they may use in their own marketing and website use. This provides a definite perk for our clients.

Always looking for ways to be one step ahead of the competition and quality in providing a full service commercial contracting service.

Keep an eye on our Facebook page, YouTube channel and of course our main website for the growing portfolio of well constructed projects.

Shown: GroceryOutlet, Fortuna,  
New Earth Market, Chico,  
& Dancing Tomato, Yuba City (a BigS Project).

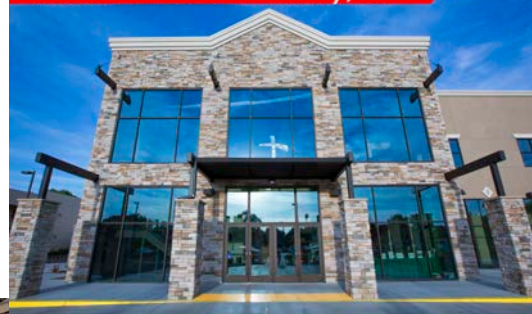

## A sample of recent project completions.....

This Spring saw the completion of one of our projects as a Partner Builder of Building God's Way. Grace Church in Tracy, CA is built around a multi purpose main room that converts from a sanctuary to a full sized basketball court.

Quite a mix of other projects were completed this quarter, including: LaBoulanger Bakery, Smart & Final/Auburn, CVS in Napa, Chick-fil-A in Sac., RiteAid in Susanville and residential properties in Marysville, CA.

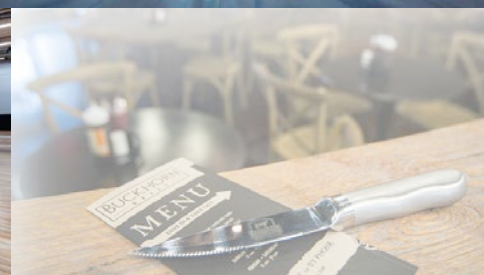

Grace Church - Tracy, CA

Buckhorn Grill - Union City

Shadelands - Walnut Creek, CA

**A (very) partial list of "Giving Back To The Community" recipients.**

**Meet:**

**Nev Shergill**

Nev comes to us, having previously worked as an intern for Tom Jones and Jerry Lorenzo. He completed the 4 year Construction Engineer program from Chico State. Nev and his wife live in Yuba City and is now a Project Engineer working with Vice President and Project Manager, Glenn Hilbers. Welcome Nev!

**Job Hazard Analysis**

**The JHA (Job Hazard Analysis) is an effective tool for planning safe work activities. A simple 3 step process can be used to identify and mitigate the danger of any given task. Start by breaking down your task to basic steps, identify the hazards associated with each process, and then list the method you intend to use to stay safe.**

Days since loss time accident: **264**

| JOB HAZARD ANALYSIS: Mow the Lawn |   |  |
|-----------------------------------|---|--|
| TASKS                             | HAZARDS   | SOLUTIONS  |
| Start Lawnmower                   | Struck by flying objects, back strain, fall caused by broken cord, fire from gas leak | Inspect mower for loose and damaged parts, wear safety glasses and work shoes, use proper body positioning |
